Thanks for the response, Susan – hope you are feeling better!

I have a question on the funding reported. From the summary, it appears that all funds are committed – can you provide the amount spent to date?

Hi Margaret and Lauren,

FYI - the in person public meetings have been cancelled due to a resurgence of COVID cases.

The virtual meetings will still be taking place.

I've updated the project status. We have had some delays due to forest capacity (i.e. people leaving), limited Operating Periods, fire restriction, and litigation. Hopefully, the implementation contractor(s) will be able to start working this Fall. I also added an update to where we are in the NEPA contract.

Sorry of the delay in responding I was out sick the end of last week.

Thank you
Susan

Good morning, Susan,

Thank you for providing the information on public meetings – we will try to attend one of the virtual sessions. Please let Lauren know what assistance PG&E can provide you from a public relationship viewpoint (e.g., input on PG&E's role in the program, objectives, etc.)

Also, with regard to project status - Lauren and I met yesterday to review the responses received to date in order to update the overall program status. You had responded that there have been no changes to the Los Padres project status as reported in February (included in the attachment). As PG&E is required by the CPUC to provide updates on program funding and implementation, we need the update/explanation of the implementation of funded project activities, including anticipated start and finish dates, and any other details to inform the project status.

We ask that you please provide your input this week, understanding that there are multiple priorities. Feel free to contact Lauren or me with any questions.

Thanks for your assistance,

Margaret Lambright | Project Coordinator | 916.231.7658 office

Hi Margaret and Lauren,

I just thought I would share the following information in case you or someone else from PG&E would like to attend or participate in the public meetings for our jointly funded Ecological Restoration Project. Our scoping letter for this project will be sent out to the public

by the end of this month.

Here are the links for the two Virtual Public meetings that we will be holding on August 8 and August 10 from 6 to 7:30 pm for the project that PG&E provided funding.

- Use Links below for public access
  - Virtual Meeting 1 (Mon August 8th) https://tinyurl.com/LPNF-ERP-Mgtn-1
  - Virtual meeting 2 (Wed August 10th) https://tinyurl.com/LPNF-ERP-Mgtn-2

We will also be having two in-person public meetings:

1. August 9, 2022 from 6-8 pm at the Los Padres NF Supervisor's office 1980 Old Mission Drive, Solvang, CA 93463
2. August 11, 2022 from 6-8 pm at the Mt. Pinos Ranger District office of the Los Padres NF 34580 Lockwood Valley Road, Frazier Park, CA 93225

You are more than welcome to attend any or all of the virtual or in-person meetings.

Thank you again for providing funding for this project. It has been greatly appreciated.

Susan

Good afternoon, everyone -

I am assisting Lauren Baeta with coordinating and tracking of the PG&E & USFS Fuels Reduction Partnership Program. One of the ongoing tasks is updating the status of past years' programs, in accordance with the collection agreement stipulation:

Provide PG&E with end of quarter project status updates on listed projects within the application in which fund were awarded to Sequoia National Forest. The USFS will reply with request for phone calls with project manager on an as needed basis; proof of invoicing for capital expenditures; proof of work contracted with outside agencies; and provide documentation of funds used, 1 year after funds are received; approximately [DATE] and other requests as appropriate. The USFS will communicate any type of issues or delays that may arise, or resulting in the incompletion of the work agreed upon, within 12 months of receipt of funds.

To that end, we are sending a status matrix for each Forest to complete so that we can bring the information current. The attached file (**[Forest]_USFS Fuels Reduction Status Update_2022-07**) contains a worksheet for your Forest. It includes any notes provided in response to past requests.

- Please input the most current information requested for ANY and ALL years that your forest participated in the program, and update the Status Date column as needed.
- Also input the agreement(s) expiration dates as needed for each agreement listed.
- If there are no updates, please just reply back to indicate current information is accurate.

We ask that if your Forest has multiple Fuels Reduction Partnership Program project managers that you please work internally to compile one summary file for your Forest. Please send the completed form to me by Monday, July 11.

Also, reach out to your Grants and Agreements contacts to coordinate requests for extensions or other changes to existing collection agreements well in advance should updates be required. Should modifications not be completed, please indicate if your funds will need to be returned to PG&E.

Thank you for your assistance - we look forward to hearing from you.
