June 12, 2018

Dear Senator,

On behalf of our millions of members and supporters, we urge you to support the bipartisan effort to craft a farm bill largely free of controversial provisions, and to oppose all amendments to the Agriculture Improvement Act of 2018 (Senate Farm Bill) that weaken protections for conservation programs, communities, wildlife, forests, and other public lands.

Controversial measures that undermine our working lands and land conservation programs, farm worker protections, national forests, endangered species, water quality, public input or judicial review bring no additional votes for final passage. Rather, such amendments unnecessarily invite opposition and make final passage more difficult.

We urge you to vote “no” on all amendments that weaken protections for conservation programs, communities, wildlife, forests and other public lands in Wednesday’s mark-up of the Senate Farm Bill.

Thank you,

Alaska Wilderness League  
Alliance of Nurses for Healthy Environments  
American Bird Conservancy
